SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation Remove victim to fresh air and keep at rest in a position

comfortable for breathing.

Skin Contact After contact with skin, wash immediately with plenty of soap

and water. In the event of contact with molten product: Cool affected area quickly with water. Do not attempt to remove

hardened product. Obtain medical attention.

Eye Contact Flush eyes with water for at least 15 minutes while holding

eyelids open.

Ingestion Call a physician (or poison control centre immediately). Do not

induce vomiting wash out mouth with water. Call a physician

(or poison control centre immediately).

4.2 Most important symptoms and effects, both

acute and delayed

4.3 Indication of any immediate medical attention

and special treatment needed

Unlikely to be required but if necessary treat symptomatically.

Unlikely to be required but if necessary treat symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable Extinguishing Media Unsuitable Extinguishing Media

5.2 Special hazards arising from the substance or mixture

Extinguish with waterspray, foam or dry chemical.

None

In case of fire the following can develop:Oxides of carbon.

5.3 Advice for fire-fighters

A self contained breathing apparatus and suitable protective

clothing should be worn in fire conditions.

Dust is ignitable but will not sustain combustion. A high temperature source of ignition is required. Insensitive to sparks. It will not train fire, e.g. along beams etc.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures Avoid inhalation and contact with eyes or skin.Ensure sufficient supply of air. Avoid build up of dust.Remove possible cause of ignition – do not smoke.Take precautionary measures against static discharge.

6.2 Environmental precautions

Avoid release to the environment.Prevent surface and ground water infiltration, as well as ground penetration. Sweep up carefully with non-sparking tools. Transfer to a

Methods and material for containment and cleaning up

lidded container for disposal or recovery.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

General hygiene measures for the handling of chemicals are applicable. Eating, drinking, smoking, as well as food storage, is prohibited in work room. Avoid build up of dust. Local Exhaust Ventilation at the workplace or on the processing machines required. Note: Danger of explosive dust

Grade name : CT™ 100

Machine Cleaning (purging):Purging with other polymers (e.g Polyethylene) at high temperatures can be hazardous. Auto ignition may also occur. Local exhaust ventilation is required. The relevant Safety Data Sheet for the purge material to be used should be consulted. Additional information can be obtained from the Victrex website www.victrex.com

7.2 Conditions for safe storage, including any

incompatibilities
